

SCS Auto GAP Administration

Efficient. Affordable. Easy. Your complete admin solution.

What our Clients say:

"SCS Auto has made us more efficient. It allows us to process sales and claims with fewer people than ever before. Its flexible product configuration enables our sales team to respond to market conditions rapidly."

Mary A. Gant
Senior Vice President
Old Republic Insured Automotive Services, Inc.

F&I Admin delivers the ONLY solution specifically designed to administer GAP... accelerate your workflow and build your business.

SCS Auto GAP includes everything you need to run your back office, including an electronic link to all your partners.

F&I Admin provides the only fully integrated aftermarket F&I platform specifically designed for GAP administration. SCS Auto GAP helps you manage all products, contracts and claims through an online solution, that includes integrated claim benefit calculations based on a flexible, pre-defined GAP coverage. SCS Auto GAP gives you the features and functionality you need, with security you can trust.

Drive your business forward.

SCS Auto offers a fully integrated workflow management solution that streamlines the administration of all F&I products including VSC, GAP, dent repair, prepaid maintenance, appearance protection, etch and others. It is a comprehensive solution that saves time while increasing efficiencies.
