

SCS Auto Prepaid Maintenance

Efficient. Affordable. Easy. Your complete admin solution.

What our Clients say:

"Within a few months of implementing SCS Auto Prepaid Maintenance, our dealers were processing over 85% of their claims online. Because of the controls SCS Auto gives us, not only is the claim process quick and efficient for the dealer, but we are able to approve and pay claims automatically. SCS Auto has dramatically decreased our administrative costs of supporting this product."

Bruce Stricklin
VP, GSFSGroup

F&I Admin delivers the ONLY solution specifically designed to eliminate the administrative cost of managing Prepaid Maintenance claims.

F&I Admin provides the only fully integrated aftermarket F&I platform specifically designed to support Prepaid Maintenance. SCS Auto Prepaid Maintenance gives you the flexibility you need to design the products you want, set the maintenance schedules that apply and then allow the dealers to electronically make each claim. So long as a claim fits into the parameters you have set, no intervention is required on your side to finalize the claim. SCS Auto integrates with your accounting and payment systems too, so the payment process is also automatically initiated.

Drive your business forward.

SCS Auto offers a fully integrated workflow management solution that streamlines the administration of all F&I products including VSC, GAP, dent repair, prepaid maintenance, appearance protection, etch and others. It is a comprehensive solution that saves time while increasing efficiencies.

Delivering:

- Flexible product configuration lets you build maintenance schedules, rates and reimbursement schedules easily with no technology involvement
- Set up a limitless number of Prepaid Maintenance plans and maintenance claim schedules
- Dealers submit claims online - no claim adjustor participation or phone calls required
- Streamlined claims management including automated coverage verification, reimbursement schedule determination, and electronic storage of documents
- Integrated channel management adds extensive functionality to manage dealers and agents including sale authority, custom rates and commissions
- Connect to menus or use our customizable dealer interface (with full DMS integration) so that dealers can get quotes, create contracts, make electronic maintenance claims, and much more
- Electronically manage contracts and cash receipts and payments through the entire customer lifecycle. Includes comprehensive billing and receivables for dealers, agents and others
